

**Tested by time in the  
harshest climate in the world.**

Global  
Technology...  
made Tuff for  
Australia.

**DURATUFF**

**Duratuff is Australia's ultimate  
wall cladding.**

What could be better than a maintenance-free exterior for your home?  
With Duratuff Vinyl Cladding, you'll enjoy the look of painted timber without  
the hassles of repairing or painting cracked, peeling or faded timber.

The  
Ultimate  
in wall  
cladding

## Before you choose cladding, apply the Tuff Test...

**Q:** Does the cladding permanently lock out the weather?

**A:** Duratuff Vinyl Cladding's unique locking system guarantees total weather protection against wild winds and driving rain. That's total security against the elements.

Duratuff cladding is your best choice for unmatched durability and lasting beauty.

**Q:** Is the cladding genuinely maintenance free?

**A:** Once it's up, the only maintenance Duratuff cladding requires is an occasional hose down. Duratuff is there for life! In fact it's guaranteed in writing for 50 years.

Duratuff cladding brings you complete protection and peace of mind.

**Q:** Do you have an exciting choice of colours?

**A:** Duratuff cladding offers you a range of permanent colours like never before. So now your home can take on a decorator look outside as well as inside.

Deep panel projection gives your home exterior a softer, more subtle look.

**Q:** Is it crush resistant... impact resistant... accident resistant?

**A:** Duratuff certainly is! So the odd bump and bang won't crack, split or damage the tough vinyl surface.

**Q:** Does the cladding meet the highest Australian Standards?

**A:** The Owens Corning solid vinyl weatherboards in Duratuff cladding meet every test under Australian Standard AS/NZS 4256.4. This is your highest guarantee of a quality product.

**Q:** Are you protected against noise, heat and cold?

**A:** The fully protective CFC-free, solid foam insulation built into Duratuff Vinyl Cladding locks out the extremes of noise, heat and cold for allround living comfort. And it's environmentally friendly.

When you install Duratuff vinyl cladding you are not only giving your home the best possible protection against the harsh Australian climate, you are also making your home more attractive and increasing its value.

Owens Corning  
Solid Vinyl  
Weatherboards

The solid vinyl weatherboards in Duratuff cladding are tested, manufactured and certified to strict Australian Standard AS/NZS 4256.4. And, for peace of mind Duratuff comes with a written 50 year guarantee.
